# Corporate To Canvas

## Customization of your Event:

Artist and owner, Kimball Willson, creates a painting event that is tailored to your unique goals and vision for the team. By utilizing her corporate background in communications and marketing, she will bring out the aspects that are important to your group and represent them visually through painting. Activities are customized and paintings may include a variety of content from company values, culture, mission, to a memory of the team's time in San Diego. Corporate To Canvas delivers more than simply a Paint and Sip experience!
